

QUAL-IM-G

*Towards a transnational certification
framework*

Jeroen Bregman MSc

International conference QUAL-IM-G
's Hertogenbosch, NL, 15 February 2019

A short introduction...

- *ErasmusPlus programme QUAL-IM-G*
- Focusing on improving the implementation of quality assurance in career guidance
- Among other, by developing a transnational certification framework for assuring the quality of individual career practitioners

O3: Developing a certification framework...

- O3: The development of a transnational Certification framework / procedure SKPKR will lead the development of this output, that will be based on the findings from earlier research on actual certification practices. Noloc will provide the role of expert partner.
- O3.1: Development of the draft version of the output (December, 2018)
- O3.2: Testing (SK, CZ) and feedback (SK, CZ, AT, DE, UK, NL) phase (June, 2019)
- O3.3: Optimization and production of the final version of the output (September, 2019)

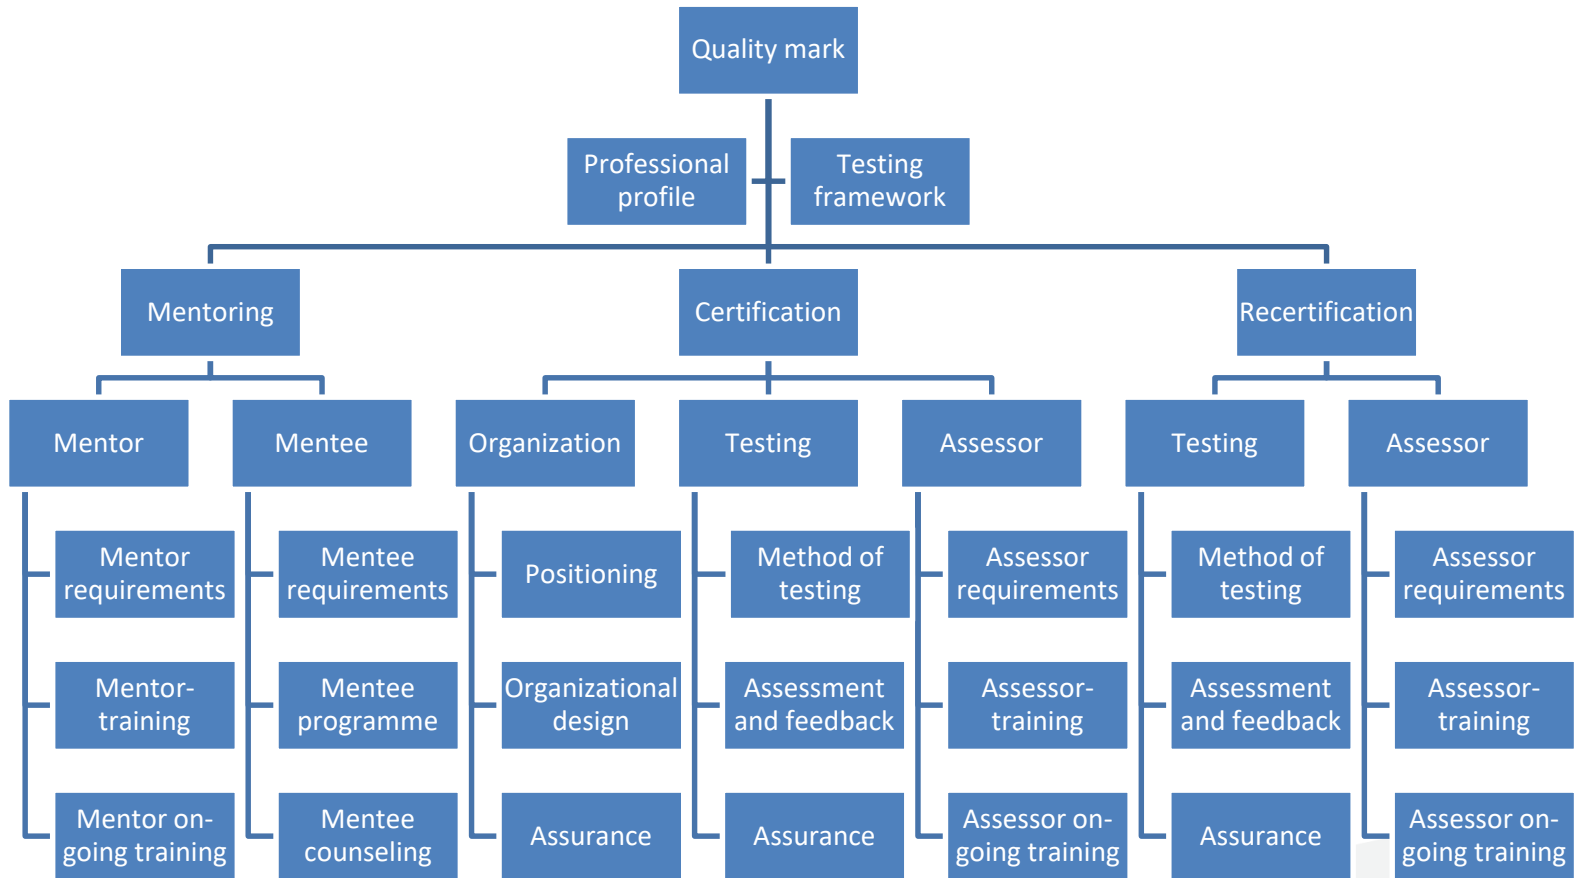

O3.1: Development of the draft version of the output (December, 2018)

The foundations of the framework

- Identifying essential corner stones
- Agreeing on professional profile
- Agreeing on testing framework
- Designing the mentoring process
- Designing the certification process
- Designing the recertification process
- Assuring the quality of the framework

A graphic consisting of a light blue circle on the left and a yellow arrow-shaped box on the right. The text 'Quality mark' is centered inside the yellow box.

Quality
mark

- Quality mark
- Holder of quality mark
- Name of quality mark
- Target group
- Specializations
- Levels of certification
- Scope
- Protection
- Register
- Validity period
- Cost

Professional profile

Professional profile

Definition of profession

Task areas

Knowledge areas

Methods, techniques and instruments

Competences

Matrix of competences

Testing framework

Testing framework

File elements

Form aspects

Educational requirements: general, profession-specific

Work experience: general, profession-specific

Task areas: knowledge, experience

Knowledge areas: knowledge, level of mastering

Methods, techniques, instruments: knowledge, level of mastering

Profession-specific competences: level of mastering

Professional attitude: code of conduct, code of ethics

Mentoring

- Mentoring
- Mentor requirements
- Initial mentor training
- Ongoing mentor training
- Mentee requirements
- Mentee programme
- Mentee counseling

Certification

- Certification
- Organization: positioning
- Organization: design
- Organization: assurance
- Testing: method
- Testing: assessment and feedback
- Testing: assurance
- Assessor: requirements
- Assessor: initial training
- Assessor: ongoing training

Recertification

Recertification

Testing: method

Testing: assessment and feedback

Testing: assurance

Assessor: requirements

Assessor: initial training

Assessor: ongoing training
